Electronics and Communications Abstracts Journal

**A PUBLICATION OF
CAMBRIDGE SCIENTIFIC ABSTRACTS**

ELECTRONICS & COMMUNICATIONS ABSTRACTS JOURNAL is an International Reference Publication Devoted to Complete and Comprehensive Coverage of the World Literature in this Rapidly Expanding and Important Field. Materials are Presented under the Main Headings of: Electronic Physics; Electronic Systems; Electronic Circuits; Electronic Devices; and Communications. Sources Include: Periodicals, Government Reports, Conference Proceedings, Books, Dissertations and Patents. The Abstracts are Extensively Cross Referenced and Indexed by Subject, Material, Author and Source.

SUBJECT INDEX

A

A priori ordering for sparse systems of equations based on ordered output sets 185133
Abdominal and obstetric applications of dynamically focused phased array real time ultrasound systems 182719
Abelian convolutional codes, encoders for 188325
Aberration
Aberration analysis of optical processors for VLA radiotelescopes 188015
Aberration changes due to focussing 187368
Aberration improvement of Selfoc lenses 180923
Aberration loss of microoptic directional couplers 176599,180973
Aberration sensors, interference in coherent 176661
Aberration stabilization during focussing of pancratic objectives 185423
Abietic acid, ultrasonic wave propagation in region of transition between glass and liquid of 182414
Ablative optical recording using organic dye-in-polymer films 183403
Ablative radome material screening 186818
Abrasive wear tests 186565
Absorbed dose measurements in mixed field of fast neutron and gamma rays 182498
Absorbers for CO_2 TEA lasers 187527
Absorbers, performance degradation of Jaumann 175401
Absorbers, spectral selectivity of solar 177771
Absorbers, textured thin-film Si solar selective 186477
Absorption
Absorption bands in solids, spectrophotometers for measuring 184593
Absorption columns, digital control of trickle bed 175959
Absorption diagnostics of turbulent argon-methane jets 180393
Absorption enhancement in solar collectors 179965
Absorption in size quantized semiconductor wires 183761
Absorption measurements by pulsed optoacoustic detection 183356
Absorption of solar radiation, Intercosmos-4 observations of 187051
Absorption power and equivalent dose of neutron radiation, state primary standards for units of 180039
Absorption refrigeration machines driven by solar heat 182198
Absorption resonance of H_2O, atmospheric radio emissions near 179432
Absorption type filters for high-power levels 176783
Absorptive materials, electromagnetic energy interactions with 187006
Abstract-symbolic description of circuit structure 187154
Abusive testing of $Li/SOCl_2$ cells 182171
AC
AC admittance of p-n PbS-Si heterojunctions 184566
AC and DC polarization of platinum electrodes 178449
AC bias recording, wavelength response of harmonic distortion in 181710
AC bridge circuits, automatic 176296
AC bridge conductivity of fast ion conductors 176445
AC conductance-bias methods considering semiconductor conductance and capacitance in MOS structures 187863
AC conductivity and NMR relaxation in ionic conductors 176447
AC controllers, power factors of inductive load 186409
AC corona, field filter probes and measurement of 182149
AC corrosion of copper earth return electrodes 178897
AC coupled Costas loop, data pattern sensitivity in tracking performance of 181880
AC current testing for nondestructive insulation tests 184278
AC cycle controllers for surge and temperature rise measurements 184478
AC distribution in solid and hollow cylinders 177618
AC distribution in solid turnings 182105
AC drives, reliability in solid state 182118
AC driving modes and circuits for electrooptical displays 187348
AC electrical loads, power regulating supply systems for 177728
AC electrodeless narrow gap discharge 182163
AC generator systems, controllable voltage 175502
AC induction motors, power factor control systems for 182080
AC Josephson effect studies, cryostats for 185574
AC large signal models for GaAs MESFET 176989,179286
AC light valve substrates, continuous silicon MOS 183812
AC loss peaks, Ga use in metal-GaAs contacts for eliminating 182362
AC measurements in solid state electrochemistry 175594
AC motor control 179889
AC motor starting current limitations 182076
AC motors 186392
AC of LISICON ceramics 175553
AC plasma display device technology 183203
AC power supply, steady state analysis of synchronous machine systems for 179882
AC signals, electrical measurement circuitry for 177417
AC source design for resistivity and Hall effect measurements 180072
AC supplied integrated semiconductor logic circuits 183020
AC surface flashover, polymeric insulation damage due to 186420
AC susceptibility around magnetic phase transition points, SQUID magnetometers for measurements of spontaneous magnetization and 183680
AC thermopower of electronic ceramics 176757
AC traction drives using current source inverters 177667
AC transmission lines, noise from 182139
AC voltage ramping effects on WO_3 electrochromic cells 182192
AC Wheatstone bridge balance 180099
AC, multi-section superconducting cables for carrying 181076
AC/AC pulsewidth modulated converters, power factor improvements in 176407
AC/DC parallel power systems, HVDC power modulation effects on 175684
AC/DC systems dynamic performance 184294
Acceleration factors for integrated circuit leakage currents in steam environments 183891
Acceleration limiting devices for turbine generators 184206
Accelerators
Accelerators, circuits for meters of integral radiation dose of 182505
Accelerators, electron 186762
Accelerators, energy calibration of EGP-10M 180250
Accelerators, microsecond high-current electron beam 180248
Accelerators, physics with GeV-electron 178111
Accelerators, pulsed ion injectors for electrostatic 180247
Accelerators, pulsed vapor sources for use in ion sources for heavy-ion 182504
Accelerators, temperature fields and thermal flux in electrode walls of MGD 186751
Accelerometer input axis stability 184866
Accelerometer test input errors, observability of 184868
Accelerometers for measuring vibration of experimental equipment 184618
Accelerometers, batch fabricated silicon 175853
Accelerometers, linear vibration techniques for measuring cross axis error coefficients in 184617
Accelerometers, tensometric 182437
Acceptance curves for overhead line dampers 181123
Access area teletraffic, blocking of 188164
Access control by means of automatic speaker verification 177318
Accident severity analysis for uniform-spacing headway policies 178665
Accumulators, electrodes for nickel-cadmium 177765
Accumulators, plastic bonded electrodes for nickel-cadmium 184323
Accuracy tests for high frequency asymptotic solutions 181969
Achieser-Zolotarev filters 180607
Acid-base exposure influence on ion controlled diodes 185771
Acoustic
Acoustic and electric waves, superposition in 175842
Acoustic and electronic analysis of singing voice quality variations 177321
Acoustic archeological mapping 187035
Acoustic bulk wave resonators, tolerance influence on 176834
Acoustic channels of inclined scanners for corner reflectors 185405
Acoustic circuits for angular type reflectors 184627
Acoustic coupling in monolithic quartz filter structures 187713
Acoustic delay lines 181165
Acoustic Emission
Acoustic emission location methods, single-channel 177987
Acoustic emission locators, channel selection for 186186
Acoustic emission monitoring 180151
Acoustic emission pulses, statistical spread of 180167
Acoustic emission signal recording and reproducing 175831
Acoustic emission signal shapes 177986
Acoustic emission signals, automatic digital equipment for recording 184631
Acoustic emission signals, information content in amplitude distribution of 186143
Acoustic emission signals, on-line data acquisition systems for 177971
Acoustic emission source identification, multi-parameter analysis for 180154
Acoustic emission systems, synthesis of multi-channel 186674
Acoustic emission testing of FRP equipment 186665,186671
Acoustic emission waves, optical probing of 186685
Acoustic emissions and ultrasonic transients, digital waveform recording and computer analysis of 182423
Acoustic emissions during expansion of fatigue cracks in high pressure

vessels ... 184643
Acoustic emissions in spherical void expansion into isotropic elastic media ... 184633
Acoustic emissions, hardness measurements with use of ... 186667
Acoustic environment predictions in space shuttle payload bay ... 180396
Acoustic field and cylindrical structure effects on sound transmission loss ... 186187
Acoustic fields formed by surface excited thick piezotransducers ... 185687
Acoustic fields, Mossbauer spectra ultrasonic sideband dependence on statistics of ... 177963
Acoustic flaw detectors, piezoelectric transducers of low-frequency ... 181223
Acoustic imaging with grating acoustic scanners ... 186689
Acoustic impedance of human ear ... 184990
Acoustic inspection units, piezotransducers for low-frequency ... 185686
Acoustic inverse scattering as means for determining area function of lossy vocal tract ... 182425
Acoustic leak detection for high pressure gas valves ... 180158
Acoustic levitation systems ... 182428
Acoustic loss and velocity of surface shear waves propagating along x-axis on rotated Y-cut plates of $LiNbO_3$ ... 182419
Acoustic microscope lenses, planar ... 184638
Acoustic microscopy applied to SAW dispersion and film thickness measurements ... 177953
Acoustic microscopy at optical wavelengths ... 178960
Acoustic microscopy in gases ... 180146
Acoustic oscillators, UHF ... 187214
Acoustic parameters in tissues, inhomogeneous media models for determination of ... 187020
Acoustic phenomena in erosion of spark-gap electrodes ... 182422
Acoustic radiating parametric antennae ... 186350
Acoustic resonance of rare earth iron magnetostrictive rods ... 177959
Acoustic sensing with single coiled monomode fibers ... 186692
Acoustic sensors, multi-mode coupled waveguide ... 185402
Acoustic signal coherence in oceans ... 175851
Acoustic signal distortion ... 180147
Acoustic signals produced in metals ... 184644
Acoustic signature inspection of railroad wheels ... 175845
Acoustic transducer materials, ferrofluids as ... 181225
Acoustic transducers, backscattering formulae for ... 183661
Acoustic transducers, radiation patterns of narrow strip ... 185698
Acoustic transfer function impact on undersea propagation coherence, ocean ... 179645
Acoustic versus inductive coupling of hearing aids to telephones ... 186064
Acoustic vortex sensing systems data collection and reduction, monostatic ... 184630
Acoustic wave magnetostrictive conversion into electromagnetic fields ... 177973
Acoustic wave oscillators ... 185209
Acoustic wave phenomena at liquid-solid interfaces, scanning laser probes of ... 184652
Acoustic wave progress and prospects, shallow bulk ... 175834
Acoustic wave propagation in composite thin plates, equivalent network analysis of ... 184626
Acoustic wave radiation in piezoelectrics ... 177968
Acoustic waves excited in single and multiple layered crystalline media ... 186693
Acoustic waves in piezoelectric-semiconductor structures, nonlinear acoustoelectric effects of ... 184629
Acoustic waves, plasma potential with ion ... 178061
Acoustic zone plate variable illuminating angle systems for acoustic microscopes ... 186683
Acoustical holography ... 183500

Adaptive diversity reception in channels, noise immunity of ... 181867
Adaptive echo canceller adjustment ... 181440
Adaptive estimators for load demand predictions ... 182580
Adaptive filter structures for deconvolution of seismic signals ... 187044
Adaptive filtering of neuronal spike train data ... 178479
Adaptive gain control applications ... 180263
Adaptive input matching control of structurally varying plants ... 182533
Adaptive interference compensators ... 176315

Adaptive interference control systems for earth-satellite links 186638
Adaptive inverse filters, storage correlators as 180620
Adaptive Kalman filter equalizers 185114
Adaptive lattice algorithms for recursive filters 176274
Adaptive lattice predictors 176321
Adaptive line enhancer response to chirped and Doppler shifted sinusoids 181919
Adaptive main beam nulling for narrow-beam antenna arrays 184125
Adaptive mirror effects on annular resonators 179148
Adaptive modal control of large flexible spacecraft 182665
Adaptive noise cancellers 179694
Adaptive noise cancellers, non-Wiener solutions of 185120
Adaptive noise feedback coding of speech 188328
Adaptive notch filters, sequential regression considerations of 182984
Adaptive optical systems resolution 185531
Adaptive optics without wave front sensors 187471
Adaptive phase compensation for optical communications 177192
Adaptive power separators 182102
Adaptive predictive coding for newspaper facsimile 186223
Adaptive processing, maximum likelihood estimation of persymmetric covariance matrices to 176410
Adaptive processing, optimal weights in 184745
Adaptive PVDF piezoelectric deformable mirror systems 181092
Adaptive quantization of speech like signals 188239
Adaptive reception of radio signals 181834
Adaptive reduced order filters 182976
Adaptive rejection circuits, sea clutter 178748
Adaptive resource allocation in spatial spectral processors 176042
Adaptive retransmission techniques for use in slotted ALOHA channels 188298
Adaptive routing in packet switched computer communication networks 181689
Adaptive signal processing 179686
Adaptive spatial processing for signal detection, noise approximation for application in 188279
Adaptive synchronizing circuits for decoding phase-encoded data 177501
Adaptive techniques in radar signal processing 179632
Adaptive threshold devices 188280
Adaptive voice flow control in integrated packet networks 179713
Adaptive wall wind tunnel development for transonic testing 178345
Adaptive wideband communications 185898
Adaptive/programmable transversal filters, sampled analog MOS LSI 185103
Additive impulsive atmospheric noise channels, frequency shift keying as modulation on 188285
Additive mixer intermodulation with field effect transistors 176978
Address assignment for time-frequency-coded spread spectrum systems 188274
Address buffer circuits in semiconductor memories 185042
Address signal insertion into video signals 177397
Addressable event display and control systems 185035
Adhesion strength measurements 186694
Adhesives for large area bonding 186836
Adiabatic
Adiabatic calorimeters, digital control of 184489
Adiabatic calorimeters, scanning ratio type 182274
Adiabatic compressed air energy storage systems 184311
Adiabatic electrocaloric effects in paraelectric systems 185599
Adiabatic methods for fibers with nonseparable index profiles 181592
Admittance in GaAs Schottky IMPATT diodes 176925
Admittance of cables, impedance and 182119
Admittance-voltage of MOS capacitors 185283
ADPCM, Kalman backward adaptive predictor coefficient identification in 177490
Adsorption, electrolyte 177759
Aerial applications research, scaling wake particle interactions for 182627
Aeroballistic range nose tip transition studies 186898
Aerobraking and aerocapture for planetary missions 176030
Aerocrane hybrid heavy-lift vehicles, stability and control of 186876
Aerodynamic coefficient identification from flight test data, instrument modelling for 178307
Aerodynamic design of aircraft 184842
Aerodynamic power associated with vibration of electrical transmission lines 179091
Aerodynamic technology 182599
Aerodynamics
Aerodynamics and flow patterns of wing-strake configuration 180328
Aerodynamics at large angles of attack, Reynolds number effects on 178292
Aerodynamics of double membrane sailwing airfoil sections 180317
Aerodynamics of extended range bombs 180358
Aerodynamics of STOL fighter aircraft configurations, thrust induced effects on longitudinal 182629
Aerodynamics, aeronautics and flight mechanics 178363
Aerodynamics, flow curvature effects on Darrieus turbine blade 180352

Atmospheric modulation noise in coherent lidar systems 185529
Atmospheric noise data for tropical regions 175417
Atmospheric organic components in telephone central offices 179544
Atmospheric parameter retrieval from observations of scanning multichannel microwave radiometers, ocean surface and 186300
Atmospheric radio emissions near absorption resonance of H_2O 179432
Atmospheric radio emissions, sphericity and radio wave refraction influence on 177568
Atmospheric radio emissions, synchronous measurements of 188032
Atmospheric refractivity structures, VHF radar signal reflection and scattering from 186108
Atmospheric science, coherent and incoherent lidar systems for 183530
Atmospheric sensing, real time imaging laser radar for 183541
Atmospheric structures, UHF signal strength measurements as guide to 178522
Atmospheric temperature, CO_2 laser radar measurements of 181751
Atmospheric transmittance meters 177569
Atmospheric transmittance, Voigt line infrared 177869
Atmospheric turbulence effects on coherent optical radar 185528
Atmospheric turbulence parameters, Doppler radar use for measurement of 182002
Atmospherics, field intensity of VLF 186299
Atom motion observed at TV scan rates 188117
Atom probe microanalysis of atomic level trace element detection 177907

Atomic

Atomic absorption flame spectrometry, noise in 180217
Atomic absorption signals, automatic processors for 181838
Atomic absorption spectroscopy, matrix interference in 175900
Atomic collisions, electron lines emitted by fast particles in 175912
Atomic fluorescence spectrometry, nondispersive continuum source 178054
Atomic power station equipment, ultrasonic inspection of metals of 184650
Atomic probes, recording units for 175925
Atomic resolution electron image processing, PROM for 183392
Atomic time and frequency standards 184681
Atomic vapor quantum counters 175746
Atoms, ion sources for investigation of charge exchange on metal 182306
Attenuating and depolarizing atmospheric hydrometeors 186307

Attenuation

Attenuation and radiation of HE_{11}-mode 186265
Attenuation by rain, prediction of 186304
Attenuation factor calculations on extended path 181972
Attenuation fading of microwave radio signals 188030
Attenuation measurements 179793,180098
Attenuation networks, thin film 178759
Attenuation of diffraction fields 175360
Attenuation, millimeter wave 177627
Attenuators for use in single-mode fiber transmission systems 185992
Attenuators, continuously variable coaxial line 177583
Attenuators, harmonic distortion 176341
Attenuators, low phase shift step 185705
Attenuators, ultrawideband electrically controlled 175768

Attitude Control

Attitude control of communication satellites 184875
Attitude control of momentum biased satellites 176041
Attitude control systems, flight experience with near-optimal 176096
Attitude control systems, flight performance of three-axis 178326
Attitude control systems, momentum bias 180365
Attitude control, MAGSAT 186862
Attitude control, satellite 176092
Attitude control, solar pressure three-axis 178303
Attitude control, spacecraft 176091
Attitude control, three-axis 178400
Attitude determination for agile spacecraft 186861
Attitude determination of Galileo spacecraft 186860
Attitude determination, spacecraft 188224
Attitude estimation, satellite 179695
Attitude instability of spacecraft 186897
Attitude maneuvers, torque 178237
Attitude motion, rocket 186881
Attitude reference systems for communication satellites, gyro based 180391
Audibility of transient intermodulation distortion 177526

Audio

Audio and video interference 183996
Audio cassettes 184006,188186
Audio clipping and blanking in AM receivers 181501
Audio consoles 179574
Audio dosimeter design 186974
Audio frequency channels included in PCM transmission systems, transient effects in 181886
Audio frequency signal generators 180771
Audio frequency signals, peak limiting 188182
Audio magnetic heads, distortion fluctuation phenomena in 176882
Audio magnetic tapes, magnetic and electroacoustic parameters of 177293
Audio microcomputers 177315
Audio noise cancellation, adaptive digital techniques for 177294
Audio oscilloscopes 179572
Audio pads 179604
Audio recording and playback systems 186085
Audio signal mixing apparatus, passive 188282
Audio spectral analysis, optical systems for 183340
Audio systems, chime tone 187733
Audio test equipment, packaging of 181718
Audio visual systems, hospital microcomputer controlled 187022
Audio, digital 186076
Audio, digital transmission of commentary-grade 177470
Auditory detection of bandpass filtered impulses 177510
Auditory perception of microwaves 179816
Auditory prosthesis, electrodes for 176148
Auger electron spectroscopy see AES
Augmentor design, turbofan swirl 176065
Auroral observations, matched tandem etalon camera applications to 187345
Auroral zone ionosphere, rocket probe and incoherent scatter radar observations of irregularities in 186302
Austenitic cladding layers, ultrasonic damping in 182431
Austenitic steel and materials, thermal behavior of electric contacts between 182364
Australia, satellite communications in 179377
Australian Seaphone Service 179509
Auto-cueing target processing, programmable parallel pipeline arithmetic processors for 184009
Auto industry, robot impact on U.S. 180294
Auto-tuning systems, hydrogen maser 183457
Autoclave attachment to Philips x-ray diffractometers 180932
Autoclaves with chemically inert reaction vessels, gas balanced 184701
Autocollimators, instruments for checking 175697
Autocompensators, spectral correlation of one-channel noise 179706
Autocorrelation functions of Gaussian noise, analog measurements of 188232
Autocorrelators, one-bit digital 180908
AUTODIN systems architecture 188131
Autodoping in epitaxial films 187931
Autodynes, noise of solid state 187780
Autoionization microscopes, power units for 185355
Automata control 180269
Automata realization by asynchronous logical circuits 185139

Automated

Automated air information production systems cartographic electron beam recorders 176726
Automated assembly techniques, space structure 184881
Automated azimuth measuring system, error analysis and performance data from 184862
Automated car assembly lines, Nissan Motor Company 182905
Automated cartography, character recognition for 176637
Automated detection and quantification of Petit Mal seizures in electroencephalograms 182804
Automated engine test facilities, microprocessor based 180590
Automated facsimile communications from Qwip systems 177250
Automated guideway transit systems 180591
Automated guideway transit vehicles, vehicle follower control of 176025
Automated industrial inspection and assembly, imaging applications for 176550
Automated inspection of printed wiring boards 176298
Automated instruments for simultaneous analysis of total hemoglobin, oxyhemoglobin and carboxyhemoglobin 178470
Automated machinery diagnostics 180823
Automated measuring systems for EMG silent period 184969
Automated mixing systems with display/data entry subsystems 182882
Automated optical inspection of multi-layer printed circuit boards 183854
Automated procedures for shipboard exterior communication RF systems design 187977
Automated processes, optical gauging for numerical machine tool control and 185467
Automated relaxation calorimeters 184492
Automated spectral analysis 180126
Automated storage oscillographs 180818
Automated strain measurements 178000
Automated stress/duress detection systems 182779
Automated thermoplastic holographic cameras 183502
Automated TLD systems for gamma radiation monitoring 178085
Automated visual inspection 183159

Automatic

Automatic AC bridge circuits 176296
Automatic analysis of interferograms 183496
Automatic analyzers, electroless bath 185887
Automatic apparatus for measuring veiling glare distribution 187427
Automatic bank tellers 180505
Automatic bar machines, algorithms for optimization of multiple-spindle 183154
Automatic calibrating devices, electronic time piece 182446
Automatic calibration circuits for deep level transient spectrometers 175803
Automatic cameras, exposure errors in 178947
Automatic capillary viscometers 186705
Automatic cell detection and tracking 176164
Automatic change detection for SAR images 177355
Automatic channel selection 187174
Automatic channel selection devices, command signal generators for radio 176390
Automatic channel selectors for transceivers in multi-channel communications 177141

Automatic clocks 178012
Automatic computation of electronic networks 183011
Automatic Control
Automatic Control Conference, 1979 Joint 180261
Automatic control for synchronous motors 184188
Automatic control of directivity of short wave receiving antennae 184147
Automatic control of household appliances 182578
Automatic control of integrated circuit trimming 181393
Automatic control of large scale integrated circuit fabrication processes 187955
Automatic control of NASA cryogenic test facilities 179049
Automatic control systems for unloading processes of container ships 182526
Automatic control systems technology 182547
Automatic control, artificial heart 186997
Automatic course corrections, planetary diameter and navigational accuracy effects on multiple 178513
Automatic currency identification systems 176423
Automatic detection of radionuclides 184731
Automatic devices in optical industry, technical-economic problems of using 184750
Automatic digital equipment for recording acoustic emission signals 184631
Automatic digital readout devices for measuring rate of temperature change 182276
Automatic directory assistance, search procedures applied to 188159
Automatic energy saving options for electronic AC motor speed control 184198
Automatic equalizers 176329
Automatic equalizers for orthogonally multiplexed QAM systems 177471
Automatic fabrication of large space structures 180347
Automatic feedback control for systems with distributed parameters, well-posedness of evolution problems in 184757
Automatic frequency control systems, pulsed phase locked 183025
Automatic frequency control systems, stability of phase locked 184586
Automatic frequency control systems, statistical properties of pulsed phased locked 186625
Automatic Gain Control
Automatic gain control circuits and systems 176292
Automatic gain control circuits, control speed in 180702
Automatic gain control circuits, digital 183000
Automatic gain control for wideband low noise IF amplifiers 183065
Automatic gain control referenced to data pattern dependent pulse streams, regenerators with 177400
Automatic gain control systems, demodulators as controllable elements of 181854
Automatic gain control, error analysis in dual-path 182513
Automatic generation control analysis 175540
Automatic gunfire control, sensor error effects on 178235
Automatic high current temperature regulators 181084
Automatic high temperature viscosimeters 180175
Automatic inspection systems, design and specifications of 185455
Automatic interference compensators, statistical characteristics of 177445
Automatic landing control laws for powered lift short haul aircraft 186869
Automatic LSI wafer dry-point detection and control systems 178218
Automatic machines, position servo loop for robots or 180293
Automatic measurements of profile of shallow-level concentration 180204
Automatic measuring systems for resistivity profiles in silicon wafers 177889
Automatic meters of amplitude-phase field configuration in open cavities 175433
Automatic microdensitometers 185424
Automatic nationwide paging systems 177066
Automatic network analyzers, six-port 176287,176288
Automatic power antennae, electronic current sensors and controllers for 186341
Automatic processing of measurement data 185027
Automatic processors for atomic absorption signals 181838
Automatic real time EEG sleep state analysis 178474
Automatic recognition of objects with two-dimensional shapes 180989
Automatic recorders for magnetization steps in ferromagnetics 184610
Automatic resonant dwell, retrofitting shakers for in-house designed 180371
Automatic routing programs for printed circuit boards 177050
Automatic sample changers for automated gamma ray spectroscopy 178419
Automatic seismic observatory communications 187043
Automatic self-checking systems, distance relay 184267
Automatic solar radiation meters 184394
Automatic speech recognition in intelligence communications 179587
Automatic speech translation 177319
Automatic supervision and testing of solid state protection systems 184266
Automatic switching audio response units 177313
Automatic switching equipment, design and testing of 184224
Automatic synchronizing and speed matching relays, power systems generator 177672
Automatic systems and algorithms for control, symmetry in 182541
Automatic systems for measurement of magnetic after-effects 182400
Automatic systems for recording and processing probe characteristics in low temperature plasmas 179933
Automatic target screeners 178944
Automatic telephone exchange services, urban 188165
Automatic temporal analysis of smoke/dust clouds 176176
Automatic test systems for remote supervision of repeatered lines 184760
Automatic testing of high voltage and adapter parts 176217
Automatic thermal conductivity meters 183587
Automatic timers 178016
Automatic tracking for electrooptical imaging and target acquisition systems 176539
Automatic tracking systems for ground stations 186104
Automatic transmission, electronic control applied to moped 180567
Automatic tuning, PID control parameters for 175960
Automatic ultrasonic inspection of pipe weld joints, standardization of sensitivity in 184649
Automatic uranium ore analyzers 180244
Automatic vehicle identification 182912
Automatic vehicle monitoring 182918
Automatic viscosimeters for investigations of melts 184692
Automatic visual inspection of reed switches 180994
Automatic voltage restore systems for high voltage substations 184223
Automatic work direction preparation 185882
Automatic workpiece surface trackers for laser cutters 183549
Automation
Automation and control in high power pulsed NMR 184520
Automation and control, electric power systems distribution 184462
Automation in laser platemaking 187590
Automation of measurements in monopolar mass spectrometers 180125
Automation of monochromators 185361
Automation of quality control of hot-rolled pipe production 183147
Automation of swept measurements 186331
Automation systems, programmable sequence controllers for 180291
Automation units of LG-32 lasers, reliability of 181015
Automation, flexible 180296
Automation, printing 185264
Automation, visual inspection 180516
Automobile
Automobile alarm devices 176420
Automobile cooling fans, holographic interferometry of 183512
Automobile electronics 182927
Automobile engines, low pollution 184185
Automobile industry use of semiconductor chips 176240
Automobile magnetic field sensors 178646
Automobile radiotelephones 181692
Automobile receivers, FM multi-path distortion in 188039
Automobile speed control systems 187097
Automobile stereo equipment selection and installation 184000
Automobiles, analog and digital displays in 178628
Automobiles, electric 178622,187095,187101
Automobiles, liquid crystal displays for 178623,178624
Automotive
Automotive applications of structural composites 187093,187094
Automotive applications, capacitance fuel measurements for 178630
Automotive automatic check and control systems 182938
Automotive board control and monitoring systems 182939
Automotive control systems, Lambda-sensors in 178640
Automotive crash environments, solid state digital data recorders for monitoring 185020
Automotive cruise control systems 180577
Automotive electrical systems, integrated timer controllers for 182930
Automotive electronic displays 182936
Automotive electronics 176242,180589
Automotive electronics in Japan 180599
Automotive electronics, environmental requirements for 182934
Automotive electronics, microprocessors in 182940
Automotive electronics, monolithic voltage regulators for 178627
Automotive electronics, multiplexed wiring for 180562
Automotive emission control and tune-up procedures 178653
Automotive energy systems, integrated residential and 180600
Automotive engine control sensors 178649,180576
Automotive engine modelling, hybrid random choice methods applied to 185069
Automotive engines 182900
Automotive fuel level based distance-to-empty calculations 178643
Automotive gear change systems, electronic automatic 180579
Automotive instrument panels, dichroic displays for 178647
Automotive instrument panels, liquid crystal displays for 178648
Automotive instrumentation, microcomputer applications in 180557
Automotive internal combustion engine servo control systems 182898
Automotive liquid crystal displays, interface considerations for 180575
Automotive liquid level sensing systems, solid state 178633
Automotive mass airflow sensors 180565
Automotive noise and vibration laboratories, minicomputer usage in 182943
Automotive radar 182932
Automotive sensors 178645
Automotive "signalbus" multiplex wiring 180561
Automotive three-way catalysts, storage effects in 178644
Automotive use, gas turbines for 178658
Automotive vehicles skid control 180595
Autonomous
Autonomous diagnostic systems for beams of particles 180246
Autonomous oscillation two-timing formalism 186702
Autonomous oscillators 187216
Autonomous target handoff from airborne sensors to missile seekers 186100
Autonomous terminal data communication systems 181687

Autonomous vehicles, electrooptical technology for 185377
Autopilot complexity/benefits 184827
Autoregressive model order selection applied to physiological signals 184953
Autoregressive models for classifying EEG segments 180452
Autoregressive spectral analysis of narrowband processes in white noise 188229
Autoregressive spectral estimates, noise compensation for 181772
Autothrottles, Boeing Aircraft use of Smiths Industries 186820
AUTOVON, next generation 187974
Auxiliary commutated thyristor three-phese inverters suitable for pulse frequency modulation 181950
Availability analysis of 2-unit redundant systems 182550
Availability evaluation for computer communication networks 185028
Availability of railway interlock equipment, reliability and 182589
Availability predictions of digital microwave systems 175388
Avalanche
Avalanche breakdown in gated diodes 181290
Avalanche breakdown in one-sided abrupt junctions 181318
Avalanche breakdown in p-n junctions, carrier effects on mean time delay for 179268
Avalanche breakdown in Pt-Si Schottky barrier diodes, two-dimensional 185781
Avalanche control in GaAs MESFET, gate-drain 183837
Avalanche counters, nuclear reaction product identification using 182502
Avalanche detectors, silicon 180921
Avalanche diode generators 180779
Avalanche generated carriers, dynamics of 183825
Avalanche in GaAs MESFET, power added efficiency and gate-drain 183836
Avalanche injection in MNOS gate controlled diodes 181274
Avalanche photodetectors, frequency and time domain of InGaAsP-InP 183369
Avalanche photodiode structures, InGaAs/InP 185318
Avalanche photodiodes, germanium 183216
Avalanche photodiodes, impurity diffusion effects on 183205
Avalanching, negative conductance at substrate of MOSFET exhibiting channel 185847
Aviation, oil support 184800
Avionic facilities, remote monitoring of 180356
Avionic systems design, pilot capability and 176093
Avionics
Avionics and controls 178296
Avionics and controls technology 182673
Avionics industry, Dutch 184797
Avionics industry, French 184798
Avionics installation cost models for NAVSTAR global positioning systems 178297
Avionics technology 176108
Avionics, British 184835
Avionics, digital communications in 179394
Avionics, military 180416, 186941
AXE switching systems central control recovery and diagnostics 181707
Axial
Axial compressor cascade, pressure rise and deflection of 175872
Axial field electrical machines 184184
Axial flow turbomachinery rotor response to inlet flow distortion 182604
Axial refractive index dip effects on zero total dispersion wavelength in single mode fibers 183945
Axial rotation, radiographic measuring of bone 184964
Axial symmetric modes in microstrip disk resonators, resonance of 181186
Axial vibration of transformer windings 179192
Axially asymmetrical antennae equipped with beam guides 184171
Axicon collectors, solar flux concentration maximum achievable with 186524
Axicon concentrators for use in photovoltaic energy conversion 182225
Axiomatic systems theory and optical images 183285
Axis stability, accelerometer input 184866
Axisymmetric bodies, surface roughness effects on laminar-turbulent transitions for 184850
Axisymmetric concentrators, photovoltaic applications of 184361
Axisymmetric fields, three-dimensional 177545
Axisymmetric flow fields in spark-ignition engines 186391
Axisymmetric wind turbine dynamics and control 182131
Azimuth monitoring devices, design of 184898
Azimuth observability during inertial navigation systems in-flight alignment 182662

Back-up protection for EHV systems 184256
Backface surface acoustic measurements of boundary layer noise 180155
Background count rate in alpha radiometers 180243
Background limited pyroelectric detectors 183594
Background signals in optoacoustic detectors 176577
Backscatter attenuation in optical fibers 177200
Backscatter matrices of dielectric bodies 179198
Backscatter measurements for optical fibers 185997
Backscattering
Backscattering and TEM of layered structures 179960
Backscattering formulae for acoustic transducers 183661
Backscattering in single mode fibers 183952
Backscattering methods for single-mode optical fibers 188067
Backscattering methods, noise effects on optical fiber attenuation measurements by 188103
Backscattering on bidirectional digital optical fiber systems, degrading effects due to 181547
Backscattering, time domain synthesis of electromagnetic 184065
Backside illuminated InAsSb/GaSb broadband detectors 183327
Bacteria, magnetic properties of magnetotactic 186654
Baghouse operations monitoring 182534
Ballasts for fluorescent lighting, energy saving lamps and 185325
Ballistic
Ballistic information models for Salyut-4 orbiting station flight 186301
Ballistic missile defense 186933
Ballistic missile re-entry dispersion 180395
Ballistic space transportation, hybrid rocket/airbreathing propulsion for 182643
Ballistic trajectory estimation 182516
Ballistic transport GaAs devices, polar mode scattering in 178965
Ballistic transport in semiconductor devices 187811
Ballistic wind compensation methods 178306
Ballistics range testing of nosetip materials 180372
Ballonet motion influence on stability of tethered aerostats 180318
Balloon film development 180312
Band characteristics of slot bridges 181177
Band readjustment effects with applications to solar cells 179955
Bandwidth
Bandwidth assignment on up- and down-links of buffer capacity satellites, optimal 188307
Bandwidth compression 186050
Bandwidth compression of image signals 179674
Bandwidth compression systems, intelligent 183332
Bandwidth effects in switched capacitor filters, finite amplifier gain and 180629
Bandwidth efficiency and error probability of MSK and offset QPSK systems 177064
Bandwidth improvement, light emitting diode 183217
Bandwidth of distorted waveguides excited by laser sources 181150
Bandwidth of imaging guides 187698
Bandwidth of long monomode fiber links in presence of weak mode coupling 181613
Bandwidth optimization of bandpass filters 181494
Bank tellers, automatic 180505
Banks, telecommunication networks for 179524
Bar coded data input terminals 187075
Bar gauges for use in airblast measurements 180179
Baraff's universal curves for ionization coefficients of electron and hole multiplication in semiconductors 185764
Bare code readers 185893
BARITT devices, boundary conditions of Schottky barrier 176950
BARITT diodes, signal analysis and internal dynamics of 176933
Barometer sensitivity 182287
Barrier Height
Barrier height at Si-SiO_2 interface in MOS tunnelling structures 181351
Barrier height change and current transport in MIS Schottky barrier solar cells 186508
Barrier height enhancement in heterojunction Schottky barrier solar cells 179956
Barrier height enhancement in Ti-silicon Schottky diodes 185780
Barrier height potential of minority carrier MIS tunnel diodes 185773
Barrier height reduction of Schottky barrier diodes 187817
Barrier oxide films formed on hafnium electrodes 185295
Base resistivity influence on silicon photoconverters 184416
Base station antenna height effects on mobile radio 182032
Base station applications in VHF/UHF mobile radiotelephone networks, antenna systems for 188175
Baseband frequency response of graded index fibers 188100
Baseband signal combiners for antenna arrays 186342
Batch option modules 176226
Batch production of plasma display panels 185303
Batch throughput efficiency of ADCCP/HDLC/SDLC protocols 177076
Batteries
Batteries for electric road vehicle propulsion, lead-acid traction 186471
Batteries for generating stations and substations, standards for lead storage 186470
Batteries for remote photovoltaic applications, lead-acid 177766
Batteries, ambient temperature solid state 175581
Batteries, capacitor 180863
Batteries, capacity rating systems for cardiac pacemaker 182813
Batteries, cathode materials for lithium/carbon monofluoride 182169
Batteries, charging of lead-acid 186472
Batteries, current conductor mass and required voltage levels for solar 182211
Batteries, degradation in Ag-$RbAg_4I_5$-I_2 solid state 175574
Batteries, electric utility market for load-levelling 186467
Batteries, lithium 182167, 182172
Batteries, lithium-sulfur dioxide primary 182181
Batteries, lithium/metal sulfide 175577
Batteries, manufacturing methods of composite cell cases for Ni-Cd 177769
Batteries, metal-air 177764
Batteries, microprocessor controlled pulsed chargers for 180553
Batteries, modelling of lead-acid 186465
Batteries, nickel-hydrogen 176048
Batteries, performance analysis of zinc-bromine 184319

Batteries, rechargeability of Na-S 186463
Batteries, reliability and performance of lithium/iodine 182173
Batteries, sodium-sulfur 177762
Batteries, sodium/sulfur traction 175576
Battery
Battery active masses, electronic conductivity of 184326
Battery discharging, lithium-sulfuryl chloride 186473
Battery industry, lithium metals for 182170
Battery operated portable multi-channel analyzers 178187
Battery plant replacement cost justification 182184
Battery powered road transportation 182896
Battery run pulsed motors 177651
Battery systems 175579
Battery systems, Fe-Pb(Ti) 177768
Battery systems, INTELSAT V nickel-hydrogen 177770
Battery technology impact on energy use in telephone industry 177761
Battlefields and armored vehicles, infrared modelling of 184529
Bayard-Alpert gauges, design of modulated 184694
Beacon, submarine simulating sonar 188228
Beam
Beam circulation in coplanar x-ray resonators 183658
Beam control, hardware demonstration of flexible 184861
Beam current control, electron gun 184516
Beam defocussing in travelling wave tubes 180885
Beam expanders, Bragg effect polarizer/analyzers and lensless waveguide 176803
Beam forming networks, recursive design methods for phased array series 185147
Beam geometry, ultrasound Doppler bandwidth dependence on 177944
Beam guides, axially asymmetrical antennae equipped with 184171

Electrodes, storage battery 175561
Electrodes, surface voltammetry and coulometry of solid 184559
Electrodes, temperature distribution along length of arc lamp 180882
Electrodes, thermodynamics and transport of solid solution 176466
Electrode/preionization sources for CO_2 TEA lasers, unidirectional composites as 183475
Electrodynamic forces on turbogenerator end windings 177648

Electrodynamics

Electrodynamics 184083
Electrodynamics for antenna arrays on circular cylinders 179850
Electrodynamics of discontinuity in cross sections of circular waveguides 179125
Electrodynamics of marginally stable resonators, gain effects on 181178
Electrodynamics, least action and variational calculus in 179790

Electroencephalograms [see also EEG]

Electroencephalograms, automated detection and quantification of Petit Mal seizures in 182804
Electroless bath automatic analyzers 185887
Electroluminescence diodes, transmission of noncoherent 176496
Electroluminescence efficiency and memory effects on Mn concentration in ZnS:Mn ACTEL devices 187339

Electroluminescent

Electroluminescent diodes 187335
Electroluminescent display elements, thin film transistor switching of thin film 185819
Electroluminescent displays 180907
Electroluminescent displays, power dissipation of thin film transistor controlled 187340
Electroluminescent regions, current-voltage of 185333
Electrolysis of water 175883
Electrolysis of water, gas bubble behavior during 175880
Electrolyte additives influence on anodic dissolution of aluminum in alkaline solutions 184325
Electrolyte adsorption 177759
Electrolyte-insulator-semiconductor field effect transistors 187880
Electrolyte-oxide-semiconductor systems 176943
Electrolyte-SiO_2-Si systems, pH influence on 187876
Electrolyte timing cells and coulometers 182162

Electrolytes

Electrolytes containing mobile and immobile alkali ions, solid 182168
Electrolytes for electrochemical machining of titanium 182164,182165
Electrolytes, ageing of carbon-air electrodes in alkaline 182166
Electrolytes, diffusion and ionic conductivity in solid 175595
Electrolytes, electrical resistivity of beta-alumina solid 175596
Electrolytes, electrochemical properties of solid lithium 175591
Electrolytes, fast ionic transport in solid 175582
Electrolytes, fuel cell 182176
Electrolytes, ionic and electronic transport in thoria 175567
Electrolytes, lithium motion and activation in Li-Na beta-alumina solid 175572
Electrolytes, NMR of solid 175727
Electrolytes, quasi-lattice gas models of solid 175882
Electrolytes, sodium β''-alumina 175587
Electrolytes, sodium β''-alumina and NASICON ceramic 175585
Electrolytes, solid 175560,184324
Electrolytes, sulfate based solid 175592
Electrolytes, thermodynamics of $LiAlCl_4$ solid and molten 175593
Electrolytes, vitreous solid 175573
Electrolytic capacitors, dissipation processes in 183179
Electrolytic coatings for solar collectors 184417
Electrolytic etch preparation of semiconductor surfaces 185777
Electrolytic etching of thin semiconductor wafers 183746
Electrolytic sensors, hygrometers with heated 182842
Electromagnet miniaturization for DC linear motors 186403
Electromagnetic actuators 177552
Electromagnetic backscattering, time domain synthesis of 184065
Electromagnetic beam wave reflection from inhomogeneous media 179774
Electromagnetic characteristics of coaxial cables 186282
Electromagnetic checking of hardness of cast iron piston rings 184706

Electromagnetic Compatibility

Electromagnetic compatibility 184054
Electromagnetic compatibility of NATO satellite earth terminals 179366
Electromagnetic compatibility of TV broadcasting services 186007
Electromagnetic compatibility, standards and regulations on 181231
Electromagnetic compatibility, TEM lines in 184055
Electromagnetic control of cell functions 184999
Electromagnetic decelerators, electronic control circuits for 182904
Electromagnetic driven fuel injection pumps 180564
Electromagnetic drives, design methods for optimal control units of DC 182136
Electromagnetic effects of shield vibration in superconducting generators 184449
Electromagnetic energy interactions with absorptive materials 187006

Electromagnetic Field

Electromagnetic field coupling to shielded cables, transient 187668
Electromagnetic field detection, linear interferometric modulators for 175384
Electromagnetic field detection, linear interferometric waveguide modulators for 181132
Electromagnetic field interactions with biological systems 178427
Electromagnetic field penetration and scattering 177543
Electromagnetic field penetration into conducting half-space 177563
Electromagnetic field penetration through coaxial cables 184095
Electromagnetic field self-focussing 179787
Electromagnetic field TM-TE decomposition 175402

Electromagnetic Fields

Electromagnetic fields 177557
Electromagnetic fields in cylindrical enclosures, transient 184096
Electromagnetic fields in cylindrical ferromagnetic conductors, elastic waves conversion to 180849
Electromagnetic fields in nonstationary resonators 179141
Electromagnetic fields induced in conducting bodies irradiated by magnetic fields and microwaves 182401
Electromagnetic fields near edge of conducting half-planes 184089
Electromagnetic fields of cylinders, thermal Green's function of 179788
Electromagnetic fields of dielectric lossy fibers, numerical calculations of 177553
Electromagnetic fields of hybrid waves in circular two-layer screened waveguides 179792
Electromagnetic fields of straight-through screened circular primary transducers 179159
Electromagnetic fields of wire carrying current parallel to infinite slabs 177697
Electromagnetic fields, acoustic wave magnetostrictive conversion into 177973
Electromagnetic fields, conducting ellipsoids in 175387
Electromagnetic fields, electron movement in 177855
Electromagnetic fields, relativistic beams of charged particles in 175390
Electromagnetic fields, teratogenic effects of 184926
Electromagnetic fields, transient response of multi-conductor transmission lines excited by nonuniform 181101
Electromagnetic fields, transmission lines illuminated by lightning induced 187658
Electromagnetic flowmeter accuracy, electrode arrangement effects on 179791
Electromagnetic flowmeters 175817,177926
Electromagnetic flowmeters, sensor design for 179794
Electromagnetic interference and compatibility, signal processing for 179672
Electromagnetic-interference control 186280
Electromagnetic launchers 187746
Electromagnetic measurements of power density 180000
Electromagnetic millimeter wave detection of glow discharge tubes in magnetic fields 182407
Electromagnetic models for antenna performance and EMC and biological effects 186368
Electromagnetic near-field simulators, cavity 186283
Electromagnetic oscillations in circular cylinders 177546
Electromagnetic oscillations, amplification of submillimeter band 182005
Electromagnetic penetration through slots in screens covered by dielectric slabs 181974
Electromagnetic problems, variational principles for non-self-adjoint 186286
Electromagnetic propagation along multi-conductor transmission lines 183601
Electromagnetic properties of electrical steel 175899
Electromagnetic pulse dipole antenna type simulators 184127
Electromagnetic pulse interactions with aircraft 183609
Electromagnetic pulse measurements, electrooptical systems for 176558
Electromagnetic pulse testing effects on semiconductor reliability 183747
Electromagnetic pulses, time dispersion of 186308
Electromagnetic pumps for LMFBR 184331
Electromagnetic radiation in media with spatial dispersion 184075
Electromagnetic radiation modulation, energy of 177595
Electromagnetic radiation, diffraction efficiency of 177591
Electromagnetic radiation, intensity measurements of 183347
Electromagnetic reverberating enclosures 184094
Electromagnetic scatterers and antennae, hybrid techniques for general 188220

Electromagnetic Scattering

Electromagnetic scattering 177544
Electromagnetic scattering by perfectly conducting strips 177554
Electromagnetic scattering by slender body of revolution 175394
Electromagnetic scattering from buried inhomogeneities 186271
Electromagnetic scattering patterns from sinusoidal surfaces 175375
Electromagnetic scattering problem solutions 179860
Electromagnetic scattering, integral equations arising in 175399
Electromagnetic shield design 179771
Electromagnetic shower detectors 178167
Electromagnetic surface impedance for layered earth for general excitation 177558
Electromagnetic systems control of optical elements of lasers 181011
Electromagnetic theory of loosely braided coaxial cables 179783
Electromagnetic transducers for tangential film speed in pipelines 176475
Electromagnetic transient response measurements, mode characterization of 184129
Electromagnetic transmission structures, relativistic foundation and network formalisms of 175396
Electromagnetic transmission through cascaded rectangular regions in thick conducting screens 175382
Electromagnetic transmission through filled slit in conducting plane of finite thickness 179761

SUBJECT INDEX

Electromagnetic transmission through filled slot of arbitrary cross section in thick conducting screen 181989
Electromagnetic vibration and noise of induction motors 177656

Electromagnetic Wave
Electromagnetic wave and anisotropic moving media interactions in waveguides 184090
Electromagnetic wave conversion in collisionless magnetoplasmas 182006
Electromagnetic wave field strength on railroad tracks, surface 186294
Electromagnetic wave generation from magnetosphere 179804
Electromagnetic wave interactions in paraelectrics 179775
Electromagnetic wave propagating in uniform waveguides 179798
Electromagnetic wave propagation in inhomogeneous anisotropic media 181980
Electromagnetic wave propagation in laminated composites, bonding materials influence on 181988
Electromagnetic wave propagation through plane layers 177549
Electromagnetic wave refraction in atmospheric boundary layers 175407
Electromagnetic wave scattering 184056
Electromagnetic wave scattering, eikonal approximation for 181990

Electromagnetic Waves
Electromagnetic waves in anisotropic semiconductors 184093
Electromagnetic waves in conducting jets 177575
Electromagnetic waves in metals 184086
Electromagnetic waves in nonlinear dissipative media, circularly polarized 180969
Electromagnetic waves in semiconductors, cross modulation of 186293
Electromagnetic waves on instantaneous change of state of radiating systems, radiation of 179763
Electromagnetic waves, diffraction of 177540,177548,184058
Electromagnetic waves, diffraction of plane 184091
Electromagnetic waves, mechanical forces and torques associated with 186279
Electromagnetic waves, microwave transducers of pressure of 181218
Electromagnetic waves, multiple scattering of 184077,184088
Electromagnetic waves, piezoelectric transformers as emitters of 181254
Electromagnetic waves, radiation frequency in plasmas in fields of 184111
Electromagnetic waves, relativistic electron beam interactions with 181176
Electromagnetic waves, toroidal resonators for 187707
Electromagnetic waves, wavetilt of 186277
Electromagnetics, free space Green's function of 175400
Electromagnets, current stabilizers for 183676
Electromagnets, transient characteristics of plunger type 179173

Electromechanical
Electromechanical anesthetic monitors 186976
Electromechanical filter resonators, material properties influencing 183657
Electromechanical oscillation damping 177844
Electromechanical oscillations sustained by aid of active nonlinear circuits 178727
Electromechanical rotors, circuits for simulating scrambling of 179879
Electromechanical switching devices, design of "explosion proof" enclosures used for 178826
Electromechanical vibration in radiation shields of turbogenerators 184212
Electromedical equipment safety 178416
Electromigration and lifetime of aluminum thin film conductors 187273
Electromigration in aluminum conductors 180848
Electromigration in gold and copper thin film conductors 185268
Electromotive force, formulations of method of induced 179866
Electromyography, optimal estimation applied to 184905,184906

Electron
Electron acceleration in betatrons 178103
Electron accelerators 186762
Electron accelerators for medical applications, neutron production from 184921
Electron accelerators for medical applications, photoneutron production from 184922
Electron accelerators, radioisotope production with 182495
Electron and hole currents in epitaxial emitters 184509
Electron and hole multiplication in semiconductors, Baraff's universal curves for ionization coefficients of 185764
Electron and hole photocurrent effects on IMPATT oscillators 178799

Electron Beam
Electron beam accelerators, microsecond high-current 180248
Electron beam annealing, multiple scan 180815
Electron beam applicators, dosimetric evaluation of variable field 184942
Electron beam build-up curves from Sagittaire linear accelerators 184938
Electron beam computer generated holograms for aspheric testing 183492
Electron beam dose distribution, inhomogeneity effects on 184510
Electron beam energy recuperation in collectors 177916
Electron beam fabrication of submicrometer gates for GaAs MESFET logic 185815
Electron beam formation for medical linear accelerators 182770
Electron beam guiding systems 186577
Electron beam induced current and scanning light spot techniques for studying response of polycrystalline solar cells 182205
Electron beam induced current characterization of polycrystalline silicon solar cells 182202
Electron beam induced current measurements of doping parameters in silicon 180067
Electron beam injection CO_2 TEA lasers, coherence of 183451
Electron beam interactions with microwave frequency fields of planar gaps 184583

Electron Beam Lithography
Electron beam lighography systems, proximity effects in 187391
Electron beam lithography, advanced 187388
Electron beam lithography, current control in 176573
Electron beam lithography, double-layer resist films for submicrometer 187390
Electron beam lithography, lens design for 185344
Electron beam lithography, proximity effects in raster scan exposure systems for 187407
Electron beam lithography, registration mark detection for 187347
Electron beam lithography, scanners for 185367
Electron beam mask fabrication for MOS LSI 187913
Electron beam microfabrication, simulation of registration signals for 182308
Electron beam oscillations, equation solutions for 177854
Electron beam oscilloscopes, stroboscopic devices for measuring signal values for 182360
Electron beam process facilities 177860
Electron beam processing, equipment advances for 177859
Electron beam production, annualar 185285
Electron beam pumped UV lasers 187493
Electron beam resist profiles, computer simulation of 184508
Electron beam resists for lift-off processing 187933
Electron beam technology in microelectronic fabrication 183897

Electron Beams
Electron beams in cable engineering 175714
Electron beams in GaAs, three-dimensional generation distribution by 186574
Electron beams in solar flares 177100
Electron beams, high-current microsecond 175712
Electron beams, high voltage discharge for production of energetic 184511
Electron bombarded semiconductor amplifiers 176936
Electron-Bremsstrahlung and proton depth-dose data, space shielding applications of 175937
Electron channelling patterns, critical-voltage effects in 182467
Electron clouds in equilibrium, magnetic field influence on 184612
Electron components of cathode currents in gas discharges 178899
Electron content data, digital processing of ionospheric 175359
Electron content of mid-latitude plasmasphere, geophysical disturbance of nighttime 186315
Electron current transport in dielectric lined cavities 175437
Electron currents in dematrons, modulation increase of 179753
Electron detectors for use in electron microscopes 175713
Electron distribution in solar wind, satellite observations of 178356
Electron dose reduction, Lipowitz metal shielding thickness for 182772
Electron dynamics in GaAs field effect transistors 183820
Electron effects on charging of spacecraft dielectrics 175943
Electron emissions and electrical breakdown of vacuum interrupters, glass debris effects on 178875
Electron emissions from depletion layers of silicon p-n junctions 185803
Electron energy loss microanalysis systems 182481
Electron energy spectra, electrostatic analyzers of 182387
Electron gun beam current control 184516
Electron gun design, annular 180872
Electron guns 184097
Electron guns in lithography 187406
Electron guns with plasma cathodes and built-in compact gas generators 183151
Electron guns, annular 180875
Electron guns, four-electrode 180874
Electron-hole pair generation at silicon-sapphire interface of SOS devices 187906
Electron image projection 187419
Electron intensities of noncrystalline substances, microdensitometers for reading 186707
Electron inversion layers, nonmetallic conduction in 181366
Electron-ion beams, electrode shape for forming wedge-shaped 177852
Electron lines emitted by fast particles in atomic collisions 175912
Electron medical accelerators 184910
Electron microscope autoradiography of whole cultured cells 187021
Electron microscope market 187396
Electron microscope transfer functions in closed form with tilted illumination 183270
Electron microscopes 185347
Electron microscopes, high brightness thermionic electron guns for 187397
Electron microscopes, TV rate histogram equalization processors for 187366
Electron microscopy, digital integrators in scanning Auger 176520
Electron microscopy, resolution estimation in 185353
Electron microwave converters 180797
Electron mobility in GaAs field effect transistors, Cr influence on 185838
Electron mobility in inversion and accumulation layers on thermally oxidized silicon surfaces 187883
Electron movement in electromagnetic fields 177855
Electron multiplier devices 180034
Electron multiplier input electron optics 183388
Electron multipliers 180036,185262
Electron multipliers, energy of output electrons from single channel 177857
Electron multipliers, modal gain in high count rate channel 184514
Electron optical converters in optical pyrometric systems 185373
Electron optical imaging devices, photocathodes for 183316
Electron-optical systems 185370
Electron optics, electron multiplier input 183388
Electron penetration into dielectric targets 179201
Electron processing in USSR 175934

Electron spectrometers using multi-detector systems based on charge coupled imaging devices 184595
Electron spectrometers, fast response 180122
Electron stimulated desorption, pulsed surface flashover involving 180221
Electron therapy, neutron contribution to megavoltage x-ray and 184911
Electron trajectories in multi-element electrostatic cylinder lenses 186266
Electron trajectory in nonuniform transverse magnetic fields 175818
Electron transfer by thermionic emissions in GaAs-$Al_xGa_{1-x}As$ heterostructures 185788
Electron transport across aluminum/silicon oxide/phosphorus implanted silicon barriers 187813
Electron transport for soft electron sources incident on conducting and insulating materials 175930
Electron transport in semiconductors, high frequency effects of ballistic 183729
Electron tubes, protective devices for 183195
Electronic
Electronic AC electric energy measuring circuits 179909
Electronic AC motor speed control, automatic energy saving options for 184198
Electronic analog slip calculators for induction motor drives 182067
Electronic and electrical drafting 185254
Electronic apparatus for air-gasoline mixture feed control in internal combustion engines 184183
Electronic apparatus, burn-in test systems for 176424
Electronic assistive devices for severely disabled 187023
Electronic automatic automotive gear change systems 180579
Electronic B-scan imaging apparatus, ultrasonic wave energy 184645
Electronic based timing systems 178014
Electronic beam programmable semiconductor device structures 183744
Electronic behavior of vanadate-arsenate glass 185739
Electronic calorie counters 183580
Electronic cash registers 178543,178544
Electronic checking of ground water 185007
Electronic circuit elements, miniature 176322
Electronic circuits and devices 185162
Electronic circuits and systems 178709
Electronic circuits for use in engine control systems 187152
Electronic circuits, digital computer formation of mesh-node equations of 180657
Electronic circuits, pulse response stabilization of linear 185144
Electronic circuits, realization of linear 185156
Electronic circuits, transient characteristics of linear 180688
Electronic circuits, two-dimensional placement algorithms for layout of 185164
Electronic communications 183911
Electronic component radiation effects work, industrial x-ray sources for 177873
Electronic components and circuits, computer aided design and manufacture of 183026
Electronic components, copper-steel based ply metals for 187258
Electronic components, flammability testing of 183150
Electronic components, hermetic sealing means for 187257
Electronic components, insertion space checking jig for 183845
Electronic components, manufacture of parallel lead 183129
Electronic computer originated mail 186051
Electronic conductivity of battery active masses 184326
Electronic constant-creep devices 180030
Electronic Control
Electronic control applied to moped automatic transmission 180567
Electronic control circuitry for terminating flash output 187165
Electronic control circuits for electromagnetic decelerators 182904
Electronic control circuits for high speed bidirectional printers 183045
Electronic control for suspension systems 180601
Electronic control of carburetors 180582
Electronic control of hybrid propulsion systems 180580
Electronic control, hydrostatic drive 180300
Electronic controlled-duration networks 183104
Electronic controllers 186796
Electronic correlators 185255
Electronic current sensors and controllers for automatic power antennae 186341
Electronic data entry surfaces, error minimizing on 176191
Electronic density of states in hydrogenated amorphous silicon 179252
Electronic design engineering 183137
Electronic Devices
Electronic devices and circuits 178732
Electronic devices for compensating for pen displacement in multiple channel strip chart recorders 178859
Electronic devices for registering signals from proportional chambers 178088
Electronic devices for testing bowel anatomoses 180430
Electronic devices, input circuits for portable 185157
Electronic devices, portable 183130
Electronic devices, silicon for 180239
Electronic devices, silicon thin film 179334
Electronic devices, zero suppressing systems for 183198
Electronic digital editing for multi-track 177297
Electronic digital governors 177475
Electronic digital scales 176412
Electronic digital type automobile clocks, time indicating devices for 178010
Electronic directional control circuits 176325
Electronic displays, automotive 182936
Electronic displays, dimming of 178824
Electronic distance measurement and aerial photography correlation for extension of geodetic control 183133
Electronic distance measuring, reflecting targets for 187338
Electronic engine control 176241,180583,180584
Eiectronic equipment, EMC measurements of 186287
Electronic equipment, reliability of 184780
Electronic expression control 181731
Electronic facet error corrections for laser scanning 183314
Electronic facsimile systems 177248
Electronic flash devices, fast charging 180920
Electronic flash devices, light measuring units for 187357
Electronic flight control systems 184828
Electronic focussing in scophony scanners 187560
Electronic fuel gauge modules, microcomputers in 178655
Electronic fuel injection control for internal combustion engines 182063
Electronic fuel injection systems 184176
Electronic fuel injection systems, pulse time addition circuits for 176314
Electronic funds transfer 180505
Electronic half-tone screening 178930
Electronic health care systems, power protection equipment for 182753
Electronic hybrid circuits 176294
Electronic ignition control 186380
Electronic ignition systems 184305
Electronic ignition timing, distributorless 180569
Electronic ignitions 186381
Electronic instrumentation, Ford Motor Company 182937
Electronic instruments for electrochemical kinetic measurements 182461
Electronic instruments, numerical display systems for 185346
Electronic instruments, packaging of implantable 187025
Electronic mail 177229,177241,179512,179516,179526,181663,181665,186022, 186023,186027,188144

Electronic mail, facsimile and 186029
Electronic materials 180803
Electronic measurement engineering 176415
Electronic message service tariffs, AT & T 183981
Electronic message services, circuitry for international 179381
Electronic message systems 177232
Electronic modelling of slow waves and spike activity in intestinal tissue 185000
Electronic modulated beam steerable silicon waveguide array antennae 182052
Electronic modules 178415
Electronic monitoring and control equipment, international practices for 187260
Electronic monitoring systems with low energy consumption 185261
Electronic multiplexing for vehicles 180563
Electronic music dictation effects on musical achievement of students 188194
Electronic Musical Instruments
Electronic musical instruments 179598,179600,179601,181723,181728,181729, 184003,184004
Electronic musical instruments, chorus effects in 181724
Electronic musical instruments, data encoders for 188193
Electronic musical instruments, digital chord generation for 181721
Electronic musical instruments, formant filter synthesizers for 186091
Electronic musical instruments, programmable circuits for 182993
Electronic musical instruments, tone generating systems for 181722
Electronic musical instruments, voice introduction into 179602
Electronic navigation systems 179607
Electronic networks, automatic computation of 183011
Electronic odometer design 180588
Electronic PABX stations, pulse circuits for two wire 186063
Electronic package connectors, ejection devices for 180850
Electronic phase locked loop circuits 180668
Electronic processes in SnO_2-InP heterojunctions 181314
Electronic rangefinders, mirror reflex cameras with 185385
Electronic register of city crossbar type telephone exchange 181703
Electronic rotation speed control systems for engines 184181
Electronic route guidance 182941

JOURNALS

1. Computer & Information Systems Abstracts Journal

International coverage of theoretical and applied computer research as well as business and marketing information. *Coverage includes*: computer software and applications; computer electronics and mathematics; computer privacy, security and other legal issues; activities of major electronics and computer companies. *Two volumes, 20 issues per year.*

2. Conference Papers Index

Access to the latest international research papers and findings presented at scientific and technical conferences and meetings throughout the world. *Coverage includes*: aerospace science/engineering; animal and plant science; biochemistry/biology; chemistry and chemical engineering; civil and mechanical engineering; clinical and experimental medicine; electronics and general engineering and technology; geosciences, material science and engineering; mathematics and computer science; nuclear and power engineering; pharmacology; physics; astronomy. *One volume, 12 issues per year plus annual index.*

3. Electronics & Communications Abstracts Journal

Coverage of world-wide theoretical and applied research as well as business and marketing information. *Coverage includes*: electronic physics; electronic systems; electronic circuits; electronic devices; communications. *One volume, 10 issues per year.*

4. ISMEC Bulletins

"Information Service in Mechanical Engineering" reviews, categorizes, cites and indexes pertinent information from more than 250 primary sources in the fields of mechanical and production engineering as well as engineering management. *Coverage includes*: management and production; measurement and control; mechanics; materials; devices: production processes, tools and equipment; energy; power; transport; handling; mechanical engineering; natural resources; mechanical engineering in science and industry. *One volume, 12 issues per year plus semi-annual indexes.*

5. Oceanic Abstracts

Covers all aspects of the world's oceanic research and related engineering studies. *Coverage includes*: marine biology; oceanography; living and non-living marine resources; marine pollution; meteorology; geology; geophysics; ships; shipping; navigation; acoustics; optics; remote sensing; government and law; coastal and deep sea environments. *One volume, 6 issues per year and year-end cumulative index.*

6. Pollution Abstracts

Access to the world's literature vital to environmental pollution research and its related engineering studies. *Coverage includes:* air and water pollution; solid wastes; noise pollution; pesticides; chemical contaminates; radiation; land pollution and reclamation; effects on plants, animals and humans; legal and economic aspects; toxicology; alternate energy sources; environmental law and education; statistics, standards and criteria; treatment; control. *One volume, 6 issues per year plus annual index.*

7. Safety Science Abstracts Journal

Literature coverage of the broad interdisciplinary science of safety devoted to identifying, evaluating and eliminating or controlling hazards. *Coverage includes*: general safety; industrial and occupational safety; transportation safety; aviation and aerospace safety; environmental and ecological safety; medical safety. *One-Volume, 10 issues per year.*

8. Science Research Abstracts Journal

Coverage of world literature with summaries for the academic, industrial and governmental communities. *Coverage includes*: superconductivity; magnetohydrodynamics; plasmas; theoretical physics; gas, semiconductor, solid state, liquid and chemical lasers and masers; electro-optical theory and devices; lasers and electro-optical device applications and effects; quantum electronics; unconventional energy sources. *One volume, 10 issues per year.*

9. Solid State Abstracts Journal

Coverage of world literature on the theory, production and application of solid state materials and devices. *Coverage includes*: solid state physics; chemistry; metallurgy; measurements; devices; thin films. *One volume, 10 issues per year.*

MAGNETIC TAPE

The Cambridge Scientific Abstracts journals are available on magnetic tape in machine-readable form for current awareness and retrospective batch searching. Contact Joyce Wiesinger for specifications and prices at 301-951-1400.

WE LOCATE, SORT, SELECT, EDIT, CLASSIFY, INDEX AND PUBLISH THE INFORMATION YOU NEED

With the vast increase in the amount of scientific and technical information disseminated today, it is no longer possible for the individual to keep abreast of the multitude of literature which is being published in his primary field of interest and related areas.

To facilitate the timely acquisition and location of data, Cambridge Scientific Abstracts, Inc. now offers six major current-awareness publications which summarize the published output of over 17,000 data sources throughout the world in twenty-two subject areas:

SOLID STATE ABSTRACTS JOURNAL

—Covering Solid State Chemistry, Metallurgy, Physics and Devices

ELECTRONICS AND COMMUNICATIONS ABSTRACTS JOURNAL

—Covering Electronic Systems, Electronic Physics, Electronic Devices and Circuits, Communications

COMPUTER & INFORMATION SYSTEMS ABSTRACTS JOURNAL

—Covering Computer Software, Operations Research, Computer Applications, Computer Systems Design and Related Computer Electronics, Computer Mathematics

SCIENCE RESEARCH ABSTRACTS JOURNAL. PART A

—Covering Superconductivity Research, Magnetohydrodynamics and Plasmas, and Theoretical Physics

SCIENCE RESEARCH ABSTRACTS JOURNAL. PART B

—Covering Lasers, Electro-Optics, Quantum Electronics and Unconventional Energy Sources

SAFETY SCIENCE ABSTRACTS JOURNAL

—Covering Occupational, Transportation, Environmental and Medical Safety

Each issue is completely indexed by: Subject, Author, Acronym/Material/Particle. Issue No. 1 of each volume includes a comprehensive Source Index.

Over 144,000 individual abstracts are published each year resulting in approximately 395,000 complete subject entries.
